

Safe Disposal of Your Unwanted or Expired Medications.

If you have difficulty leaving home due to mobility or health issues, please take advantage of the **3rd Annual St. Mary's County Medication Collection Day, Saturday, April 30, 2016**

The St. Mary's County Sheriff's Office will send uniformed officers to the homes of individuals who are unable to dispose of their unwanted medications at the drop-boxes located at the St. Mary's County Sheriff's Office.

To schedule a pick up, contact Sarah Miller, St. Mary's County Department of Aging & Human Services Community Programs & Outreach Manager, at 301-475-4200, ext. *1073, or sarah.miller@stmarysmd.com.

The deadline to schedule a pick-up is Friday, April 22.

This take back effort ensures that medications in our community are disposed of properly. Proper disposal of prescription medications helps protect you, your family and the environment. Avoid health problems that can occur from accidentally taking the wrong medicine, too much of the same medicine, or a medicine that has expired. For more information on proper medication management, visit <http://healthystmarys.com/behavioral-health/smartrx/>.
