

CHILDREN'S ENVIRONMENTAL HEALTH DAY

OCTOBER 12, 2023

DRIVE ACTION

INCREASE VISIBILITY

CELEBRATE!

Children's Environmental Health Day is a day for child health advocates to raise awareness of the children's environmental health issues like clean air and water, safer food and products, and healthy places for children to live, learn, and play.

Get involved and celebrate successes in the field, get to know other children's environmental health advocates, and discuss challenges and the road ahead.
